

## CONCLUSION

**YES**

**Sin is not cause of death**

*There was death on earth long before Adam sinned*

**NO**

~~**Sin is cause of death**~~

*Earth was perfect – and nothing died –before Adam sinned*

## KEY POINTS

- **Adam was not the first human.** The Bible says Adam was in the Garden of Eden about 4000 BC. Archaeologists have found people and cities that existed long before that time.
- **Adam's sin is not the cause of death.** Life and death had been occurring on earth long before Adam.
- **Death is not a mistake or punishment for sin.** God purposely designed the universe for birth, aging and death. No man's action is unforeseen by God or able to disrupt God's plan. Death clears the way for new and better life.
